+91-8866349970 | agrawalakshat2005@gmail.com | linkedin.com/in/akshat-agrawal | github.com/Akshat09042005

Education

Vellore Institute of Technology, India

Sep 2022 – May 2026

BTech in Computer Science and Engineering (CGPA: 7.96)

Technical Skills

- **Languages/Frameworks/Tools:** React, JavaScript, Python, TypeScript, Node.js, Express, C++, Java, Next.js, Git, Tableau, Vite, Zustand, TanStack Query, MongoDB, SQL, JWT, AWS, Docker.

Work Experience

JK Organisation (CPM Unit) - Software Developer

Apr 2025 – Jun 2025

(Excel, C++, Tableau)

On-Site

- Assessed efficiency across 4 stages of paper manufacturing (pulp, bleaching, drying, finishing) at a 160,000-ton/year plant; created Tableau dashboards reducing KPI monitoring time by 30%.
- Programmed 50+ C++ algorithms automating performance tracking and process validation tasks.

WebsCraftMedia - Web Developer

Aug 2024 – Oct 2024

(React, Tailwind, Node, HTML, CSS)

Remote

- Collaborated with design and development teams to deliver web solutions for 5+ clients; ensured projects met technical, visual, and branding standards while reviewing modules for consistency and quality.

Made For Solution - madeforsolution.com - Intern

Nov 2023 – Feb 2024

(React, JavaScript, HTML, CSS)

Remote

- Co-developed the MFS corporate website, significantly improving online engagement and user interaction by 40%, while providing input on design and functionality decisions.
- Guided the founder on 5+ ML projects contributing to operational and strategic decisions, enhancing workflows.

Projects

Doctor Dhundo | Doctor Web Platform | Link | GitHub

(MongoDB, Express.js, React.js, Node.js, JWT Authentication, RESTful APIs)

- Engineered a full-stack MERN appointment system with patient booking, doctor scheduling, and admin panel for 50+ healthcare providers, able to efficiently scale to 10,000+ monthly appointments.
- Integrated JWT authentication with 3 user roles, advanced search filters for 6 specialties, and real-time dashboards, supporting 500+ daily appointments as platform usage grows.

AI Job Matcher | Job Portal Dashboard | Link | GitHub

(React.js, Node.js, Express.js, MongoDB, Cohere AI, JWT, Tailwind CSS)

- Implemented a MERN job portal using Cohere embeddings for semantic matching; accommodates 5000+ users receiving personalized recommendations and applying to matched positions automatically.
- Configured a semantic search engine using Cohere's embed-english-v3.0 model; added advanced user preference filters by industry and location and deployed a live job feed handling 5,000+ listings.

Streampod | Podcast Web Dashboard | Link | GitHub

(React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Firebase, JWT, OAuth 2.0, React Router, Axios, Git)

- Established secure authentication (JWT + OAuth + OTP), dual media players for audio and video, real-time search with 12 categories, cloud uploads with tracking, favorites system, and an upload wizard.
- Developed creator dashboard with earnings calculation (0.006-0.012 USD/view), theme switching, form validation, and comprehensive error handling across all features.

Achievements & Extracurricular

- Research Paper Accepted: "An Offline Packaged RAG AI Assistant" — accepted at the 2025 IEEE International Conference on Decision Aid Sciences and Applications (DASA'25).
- Academic Scholar – Reliance Foundation 2022.
- Led the Metaversity Club as Technical Lead, increasing engagement 50% via AR/VR workshops and interactive sessions.
- State-level football player – contributed to 10+ match wins, demonstrating leadership and teamwork.
- Coordinated Advitya 2024 & 2025 – organized events for 2,000+ attendees, increasing participation by 25%.
