Technical Skills

- **Languages/Frameworks:** C++, HTML5, CSS3, JavaScript, ReactJS
- **Technologies & Tools:** Git, GitHub, Visual Studio Code, Tableau

Work Experience

JK Organisation (CPM Unit) - Intern (Remote)	Apr 2025 – Jun 2025
• Analyzed efficiency and quality controls across 4 core stages of paper manufacturing (pulp, bleaching, drying, finishing) at a plant with an installed capacity of 160,000 tons per annum. • Designed Tableau dashboards to visualize KPIs, reducing monitoring effort by 30%. • Used C++ for optimization tasks, solving 50+ logic challenges tied to production metrics.	

WebsCraftMedia - Intern	Aug 2024 – Oct 2024
• Collaborated with cross-functional teams to develop web solutions for 5+ clients, ensuring alignment with specifications and brand guidelines for consistent delivery. • Conducted peer reviews for 10+ modules, ensuring brand compliance.	

Made For Solution - Intern	Nov 2023 – Feb 2024
• Contributed to the development of the MFS corporate website, employing cutting-edge web technologies to elevate the company's online presence and increase user interaction by 40%. • Engaged with the advisory team at MFS, supporting 5+ ML, Data Analytics, and Deep Learning projects, improving solution efficiency by up to 20%. • Website: madeforsolution.com	

Projects

Rehmat Foundation NGO Web Platform
• Established and led a non-governmental organization platform connecting 30+ educators with 100+ underprivileged children to enhance community engagement and improve access to educational resources. • Link: akshat09042005.github.io/Rehmat
AI for Early Detection of Diabetic Retinopathy AI/ML + Healthcare
• Collaborated with a team of AI researchers to develop a web platform for early detection of diabetic retinopathy (DR), integrating machine learning model outputs for retinal image analysis — achieving 87% diagnostic accuracy. • Designing and developing a responsive website to display AI-generated diabetic retinopathy (DR) predictions, aimed at serving 1,000+ users.

Achievements & Extracurricular

- Academic Scholar – Reliance Foundation 2022.
- Technical Lead at Metaversity Club – boosted engagement 50% through AR/VR learning modules.
- State-level football player – contributed to 10+ match wins, demonstrating leadership and teamwork.
- Coordinated Advitya 2024 & 2025 – increased participation by 25% with 2,000+ attendees.
